# Thank you

On behalf of the entire Carolina Show Ski Team, we can't thank you enough for supporting us in 2021 as we returned to the shores of Lake Wylie performing shows every Friday throughout the summer. As you packed the shores and waters each week, you filled our hearts as we wowed you with flips, tricks, and swivels.

None of this would be possible without the support of our sponsors and patrons donating each show! This year, the team has been able to complete a two year restoration project on the jump, invest in new wetsuits for our bases, jumpers, and barefooters, and replenish our skis and ropes. Fun Fact - we use over a mile of ropes during one show!

2022 is an exciting year for Tega Cay as we celebrate the city's 40th birthday, the sport of water skiing's 100th anniversary, and the Carolina Show Ski Team as we represent as the only show ski team outside the state of Florida at the USA Water Ski's Southern Region tournament in Winter Haven, Florida in June!

As you can see, it takes a lot to put a ski team together. None of this would be possible without each and every one of our sponsors. Please take some time to check them out!

In addition to our sponsors and supporters, thank you to the families and volunteers who make this show possible each and every week! And last, but certainly not least, we wouldn't even be on that water if it weren't for the boat drivers and spotters to keep everyone safe. They truly are the unsung heroes of our team!

## Show Acts DEFINITIONS

**ATB:** Around the Boat. Keep an eye on the show skiers as the driver takes them 360° all the way around the boat! It's a coordinated dance on skis between the driver and the skier.

**Barefoot Line:** A barefoot line consists of several people next to each other on their bare feet going about 38 MPH. This act gets your blood pumping and brings the excitement!

**Doubles:** This is a partner act. Sometimes the base is holding the rope and sometimes he has a strap, similar to trios. The strap attaches to the rope, allowing them to have their hands free. They can now use both hands to lift the girl into the air to do multiple tricks.

**Hydrofoil:** The Sky Ski rides on a hydrofoil below the water, but lifts the rider out of the water on a chair! This gives the rider complete control to do amazing jumps and flips out of the water.

**Pyramid:** Opening pyramid is a group act in which our team work shows! Each girl comes off the dock on her base's shoulders. We use our balance and strength to climb up with the help of our ropes to perform the opening pyramid!

**Shoe Skis:** These skiers are on small skis with no fins. This allows them to do quick turns at a faster speed.

**Swivel:** Swivel is typically performed by the girls on the team. The act is full of grace and poise. The binding on the ski allows them to make 180° turns or 360° spins.

**Toe Turn Line:** This is one of the oldest tricks in the book! Picture perfect! The girls are on swivel skis and their bindings turn 180°. They will brace to each other while their foot is attached to the rope (toe hold) and all turn backwards. Difficult and amazing!

**Trios:** Two bases are assigned to one girl. The two bases are on two skis and have a strap around their waists. The strap attaches to the rope, allowing them to have their hands free. They can now use both hands to lift the girl in the air to do multiple tricks.

# LEARN TO SKI

---

Whether you're learning to ski for the first time ever or getting back on the water for the first time in years, our skilled instructors will guide you through a morning of fun on the water. This is open to the young and the young at heart, but the desire by the participant to learn the sport is important for his/her success.

Participants will have the opportunity to learn to ski on two skis. Those who are successful on two skis can try a single slalom ski. Our instructors WILL have you up on skis within your selected session.

During the session, you'll enjoy personalized instruction in a small group setting. Our clinics are sanctioned by USA Water Ski. You'll learn from some of the Carolina Show Ski Team's most talented skiers alongside our certified boat drivers.

**Learn to Ski dates  
will be posted on
