# Thank you

WE ARE BACK! Though 2020 gave us so many challenges, we used that time as a team to work on our individual skills to come back bigger and better than ever! We were lucky enough to spend some time with members from both the Ski A Rees and Cypress Gardens show ski teams, located in Florida. Our mentors mean the world to us! A big shout out to Susan and Justin Landers for their willingness to pull our team members so they could continue to learn during a tough summer!

None of this would be possible without the support of our 2020 and 2021 sponsors! Every single one of them has donated so that we can fix, build, paint and create all things show ski to bring you what you'll see this summer.

Last year we were able to be a big part of unveiling the new pavilion here at Windjammer Park. Our board members, past and present, along with countless others partnered with the city of Tega Cay to design and build this wonderful new place for our community to have parties, lounge around and of course, watch our shows! Included in that build was a huge storage shed for all of our show ski equipment. Previously, we had to tow around an enormous trailer for every practice and show! This is so much more convenient and saves us so much time. This year, new ski racks and organizational pieces were built to improve it even further. Have you seen the new cement pad near the dock with the beautiful wall around it? We have to thank the Chiericozzi family and Ryan Muckenfuss that made that possible! Ryan is an Eagle Scout and built the beautiful wall around the pad so that we have a great place to set up for shows. It's also a great place for people to hang out and watch the boats go by.

We also needed some extreme repairs to our jump, mainly the surface. We had to buy a brand new one and have it shipped from Ohio. The bottom of the jump needed to be completely refinished which took a ton of volunteer power and hours!

As you can see, it takes a lot to put a ski team together. None of this would be possible without each and every one of our sponsors. Please take some time to check them out!

In addition to our sponsors, we wouldn't even be on that water if it weren't for the boat drivers and spotters to keep everyone safe. They truly are the unsung heroes of our team!

## Show Acts

### DEFINITIONS

**Barefoot Line:** A barefoot line is a great way to open the show. A barefoot line consist of several people next to each other on their bare feet going about 38 MPH. This act gets your blood pumping and opens the show with excitement.

**Pyramid:** Opening pyramid is a group act in which our team works shows! Each girl comes off the dock on her bases shoulders. We use our balance and strength to climb up with the help of our ropes to perform the opening pyramid!

**Shoe Skis:** These skiers are on small skis with no fins. This allows them to do quick turns at a faster speed.

**Swivel:** Swivel is typically performed by the girls on the team. The act is full of grace and poise. The binding on the ski allows them to make 180-degree turns or 360-degree spins.

**Trios:** Two bases are assigned to one girl. The two bases are on two skis and have a strap around their waists. The strap attaches to the rope, allowing them to have their hands free. They can now use both hands to lift the girl in the air to do multiple tricks.

**Doubles:** This is a partner act. Sometimes the base is holding the rope and sometimes he has a strap, similar to trios. The base takes his partner off the dock on his shoulders while they do maneuvers without assistance.

**Toe Turn Line:** This is one of the oldest tricks in the book! Picture perfect! The girls are on swivel skis and their bindings turn 180-degrees. They will brace to each other while their foot is attached to the rope (toe hold) and all turn backwards. Difficult and amazing!

**ATB:** Keep an eye on the show skiers as the driver takes them 360° all the way around the boat! It's a coordinated dance on skies between the driver and the skier.

**Hydrofoil:** The Sky Ski rides on a hydrofoil below the water, but lifts the rider out of the water on a chair! These gives the rider complete control to do amazing jumps and flips out of the water!

# LEARN TO SKI

---

Whether you're learning to ski for the first time ever or getting back on the water for the first time in years, our skilled instructors will guide you through a morning of fun on the water. There is no age limit to participate; however, the desire by the participant to learn the sport is important for his/her success.

Participants will have the opportunity to learn to ski on two skis. Those who are successful on two skis can try a single slalom ski. Our instructors WILL have you up on skis within your selected session.

For only \$50 per skier per session, you'll enjoy personalized instruction in a small group setting. Our clinics are sanctioned by USA Water Ski. You'll learn from some of the Carolina Show Ski Team's most talented skiers alongside our certified boat drivers.

Due to high demand, we're adding an additional clinic this summer. Make your reservation early as space is limited. Each day offers an early and late morning session.
